

YOU ARE INVITED

Batik by Mary Edna Fraser derived from a U.S. National Oceanic and Atmospheric Administration image showing a magnitude 9.3 earthquake that struck off of the Indonesian island of Sumatra on Dec. 26, 2004, generating a tsunami as tall as 80 feet and killing nearly 300,000 people.

Lecture and Opening Reception for the Exhibit

“Deltas, Barrier Islands, and Beyond”

Featuring
World-renowned
Batik Artist Mary Edna Fraser
and
Internationally Recognized
Geologist Orrin Pilkey

4:30 p.m. Tuesday, March 7

Atrium
Stephenson Research and Technology Center

Both the lecture and the reception that follows are free and open to the public.

The interdisciplinary exhibit “Deltas, Barrier Islands, and Beyond” features large-scale silk batiks depicting the changing natural environment, from ancient river deltas and barrier islands to the planets of our solar system. The exhibit, on view through April 7, is sponsored by OU’s Honors College, College of Earth and Energy, College of Liberal Studies and School of Geology and Geophysics with the assistance of the Fred Jones Jr. Museum of Art.

For more information and/or accommodations on the basis of disability, call Sarah Tracy at 325-3057.

The University of Oklahoma is an equal opportunity institution.
